SPOKES	Stainless
TIRES	Fr: Kenda K-Rad 20x2.125” Rr: 20x1.95”
OTHER	
WEIGHT	How much does this bike weigh? It’s a common question, and rightly so. But the truth is, there are no industry standards for claiming bike weights—and this leads to a lot of misinformation. Variances exist based on size, frame material, finish and hardware. And as bikes get lighter, these differences become more critical. At Giant, we believe the only way to truly know the weight of any particular bike is to find out for yourself at your local retailer.

FRAME DESIGN

Frame Technology

With a lightweight, tapered CroMo frame and fork, Method was created with rider input from Corey Bohan and the entire Giant BMX team. Featuring tried-and-true geometry and a CroMo three-piece crankset, it’s ready for everything.

Features
- 3piece Cr-mo crankset w/25T alloy sprocket and 9T driver
- Alienation rims
- Giant Grip Saddle and Pivotal Post

Recommended Retail Price AU$229.00

Note: Freight rates to different locations can affect the retail price
